

CLINICAL SYSTEMS TRANSFORMATION SERVICES

Beacon Partners provides the proven expertise to maximize your clinical system investment. Now, with the advent of the American Recovery and Reinvestment Act of 2009 (ARRA), this investment is more important than ever.

Healthcare organizations have long been faced with many challenges affecting patient safety and care, fiscal stability and evolving technologies, including the implementation of clinical information and EHR systems. Now "meaningful user" and incentive issues add to the complexity.

Beacon Partners' experts, while conveying understanding of governmental requirements and incentives, are skilled in precisely the areas that provide the most value for your clinical systems investments. We are committed to staffing your engagement with experienced, knowledgeable professionals to assess, plan and implement patient safety-focused technologies.

THE BEACON PROCESS INCORPORATES FIVE KEY ELEMENTS

- Vision
- Workflow Integration
- Communication
- Change Management
- Measurement

By providing insightful thought leadership and execution across each of our services, we help you achieve the optimal alignment of people, processes and technologies throughout your entire enterprise.

Beacon Partners can maximize your **ENTERPRISE YIELD™**, the output generated by your own unique mix of people, processes and technologies.

OUR CLINICAL OPERATIONS SERVICES INCLUDE:

- **Clinical Search and Selections**
Organizing Search and Selections and increasing best fit outcomes
- **Pre-Implementation Strategies**
Increasing success rates and physician/clinician satisfaction while managing costs and maintaining healthy bottom lines
- **Clinical System and Process Optimization**
Increasing ROI and physician/clinician satisfaction while paving the way for future implementations
- **Feasibility and Total Cost of Ownership (TCO) Assessments**
Identifying and qualifying budgetary needs
- **Patient Access and Workflow Analysis**
Increasing patient and physician satisfaction, patient safety and revenue
- **EHR Planning and Implementation, ePrescribing and CPOE**
Meeting governmental standards while improving patient care

We're so confident of our ability to identify, implement and optimize technology solutions on your behalf, we offer healthcare management consulting's only Satisfaction Guarantee.

"The depth and expertise of the Beacon Partners' consultants proved invaluable in understanding how to integrate a vendor solution into our healthcare operations."
